“ My vision is to make RMT bigger and better at winning for transport workers: defending and improving your and your workmates’ job, pension, wages and conditions. This means making the union open and transparent. With me as President, you will know what is going on in your union and be able to get involved more easily. RMT will oppose discrimination and become more representative of the diversity of its members. I will ensure that your union carries out your decisions. The President’s role is to uphold democracy and make sure that union officers work for you, the grassroots members. ”

You can trust me to carry out this role.

A voting paper will be sent to your home address from **1 October**. You must vote by **3 December**.
